

Request a Donation

We are a member-owned, community-based natural market committed to building a dynamic community of healthy individuals, sustainable local food systems, and thriving cooperative commerce.

The Co-op helps support our community by contribution through our donation program. When reviewing requests, we take the following into account: relevance to our mission, the timeline of the request, the amount of requests received in any given timeframe, and the overall donation/sponsorship budget. The Co-op reserves the right to decline a request at any time. All requests are reviewed as they are received and responded to within two weeks. All approved donation requests will receive a gift card to the Co-op. First time requests will be considered ahead of organizations that have applied in the last 12 months. We cannot accommodate requests for store supplies (cups, containers, etc.)

We consider donation requests from organizations and community groups that: strive to advance and enrich our community; focus on the environment; are food related, emphasizing local and sustainability; promote community health and well-being; support cooperatives. The Co-op will not consider donation requests from political groups, requests for the same event/cause submitted by multiple people, requests within the same year for the same event, and third-party fundraisers. Requests for specific individuals will be reviewed, however preference is given to organizations or fundraising events.
