

HMC Bylaw Committee Notes

June 15, 2020

Video Conference

Carl, Scott, Sue, Stephanie, Jed, Steven, Kari

The Committee discussed the options for going forward. There are pros and cons for holding the vote by video conference in the coming year and there are risks for both holding the vote and not holding the vote. Considerations discussed: technology, opportunities for real deliberation, incentives for participation. It was suggested that we observe the State Senate sessions.

The option favored by the committee is to announce the vote at annual meeting, run the campaign through January and hold a special meeting in February or March. Small group meetings and individual conversations were thought to be critical to allow people to ask questions and express their perspectives.

Carl agreed to draft a memo for Council with the committee's recommendation.
